We encourage car-pooling and use of public transportation.
Tune in on YouTube if can't physically make it (search event title).
Bring your own reusable utensils, water-bottles and plates for mea ai.

All participants were encouraged to carpool, bike, walk, and/or take the bus to the event to reduce CO2 emissions. Online resources were utilized to post the event's program and live streamed the event via YouTube. Hosting organizations encouraged the use of reusable plates, cups and utensils and offered prizes to those who brought them, and made sure that recycle bins were readily accessible. Food was purchased and prepared locally with leftovers given to participants who had reusable plates. The event hosted an art display created with recycled materials that shared promises to sustainability.

Highlighted Green Measures from the Event:

Promote traditional culture using natural and traditional item

Natural lighting in the venue

Traditional and reusable items

Stream the event online and encourage guests to bring their own plates, cups and utensils
