

Welcome Hawaii Green Business Program Screening

What is Hawaii Green Business Program ?

The Hawaii Green Business Program (HGBP) assists and recognizes businesses that strive to operate in an environmentally and socially responsible manner.

HGBP goal is to help businesses go beyond compliance, particularly in the areas of:

- Energy Conservation
- Waste Reduction
- Pollution Prevention
- Water Conservation
- Natural Resource Preservation
- Community Involvement
- Cultural Preservation

 Aqua Bamboo Waikiki Hotel

Aqua Hospitality recognizes the importance of minimizing the impact on our environment with earth-friendly practices at our environmentally friendly hotels.

As part of Aqua's ongoing commitment to green initiatives, Aqua Aloha Surf Waikiki has made that transition to being ***eco-conscious***.

The efforts of the sustainable and environmental practices at Aqua Aloha Surf since 2007 has resulted in reduced consumption of electricity of by 301,440 KWHs or 24.39%; a savings of \$90,432 per year at current rates.

Aqua Bamboo Waikiki Hotel is a boutique hotel located in the heart of Waikiki, with just over 90 guest rooms.

Over the past five years, the Aqua Bamboo Waikiki has progressively pursued sustainability initiatives and has been incorporating green practices in all levels of their operation.

Aqua Bamboo Waikiki's green initiatives, the property has covered all aspects of conserving Hawaii's natural resources, including water, gas, and electricity

Aqua Palms Waikiki looks forward to the return on investment that will result not only from a more responsible use of energy, improved efficiencies, and cost savings, but through this process, the company will become better environmental citizens.

As a result of the Aqua Palms Waikiki green initiatives, the property has covered all aspects of conserving Hawaii's natural resources, including water, gas, and electricity (oil), and is able to track and demonstrate a 35% reduction in energy consumption.

Ala Moana Hotel, Honolulu's landmark hotel, offers contemporary hotel accommodations for business and leisure travelers.

While sustainability has been important to Ala Moana Hotel for many years, the property has progressively implemented a “green” approach to nearly all aspects of its business.

Through day-to-day operations, Ala Moana Hotel has helped to conserve natural resources, minimize waste and encourage recycling efforts

DoubleTree's Green Business Program is an integral part of daily operations with both Team Members and guests helping to contribute to a "greener" future.

Their participation in the Hawaii Green Business Program has provided them with recognition of their activities in the areas of conservation and recycling.

DoubleTree by Hilton Alana Waikiki Beach encourage their guests to recycle and provide recycling bins in common areas of the hotel and in their guest rooms.

With **Hawaii Prince Hotel Waikiki** 's enrichment programs, (Lokomaika'i and No Na Mamo), the hotel constantly strives to develop new ways to assist in the commitment to preserve Hawaii's culture and environment.

The hotel installed CO2 monitors in their Self/Valet parking lot and Diesel Exhaust monitors to reduce their exhaust fan motor running from 24/7 to 1 hour per week.

This project was fully funded by Hawaii Energy for

HAWAII PRINCE HOTEL WAIKIKI
AND GOLF CLUB

Hilton Hawaiian Village Waikiki Beach Resort has a long, proud history in Hawai'i.

With its rich history in Hawai'i, social responsibility and environmental stewardship are cornerstones at the resort. So much so, that the hotel was one of the first hotels in Waikiki to launch a Green Business Program in 2000 as a proactive effort to preserve Hawaii's precious environment.

Today, Hilton's Green Business Program is an integral part of daily operations with both Team Members and guests helping to contribute to a

Hilton Waikiki Beach bridges their goals as a business with their commitment to our home in which we thrive.

Their vision as a progressive yet sustainable hotel results in a combination of utilizing their resources needed for current operations while positively impacting our future as a Community. “If an activity or practice is said to be sustainable, it should be able to continue forever.”

The hotel recently received the prestigious ENERGY Star Award from the Environmental Protection Agency for its conservation of energy.

Hilton

WAIKIKI BEACH
ON KUHIO

Holiday Inn Resort Waikiki Beachcomber has implemented several meaningful changes to how it does business, including reducing its energy consumption by 4,000 kWh per day through retrofitting its chiller with variable frequency drive chillers, certifying the hotel as a U.S.

EPA Energy Star building in 2009, and saving 624,267 gallons of water annually through running the cooling towers on a high cycle chemical program.

Hyatt Regency Waikiki Beach received most Hawaii green business certification among Hawaii hotels. While sustainability has been important to Hyatt Regency Waikiki Beach and Resort for many years, the property has progressively implemented a “green” approach to nearly all aspects of its business.

Through day-to-day operations, Hyatt Regency Waikiki has helped to conserve natural resources, minimize waste and encourage recycling efforts. The hotel implemented “Totally Green” program inviting guests to opt out of getting maid service.

HYATT REGENCY®

WAIKIKI BEACH RESORT & SPA

The Kahala Hotel & Resort has served as an industry leader in the Hawaiian Islands in implementing sustainable practices in its daily operations for more than 50 years.

By collaborating with its owners, vendors and business partners, the resort has actively worked to lessen the environmental footprint of its daily operations through conserving natural resources, minimizing waste and pollution and raising environmental awareness among its employees, guests

The KoOlina Beach Club has made a commitment to conservation and recycling, and will continue to improve their daily operations.

In 2009, they recycled 5.93 tons of Aluminum, 44.46 tons of cardboard and mixed paper, 2,110 gallons of fryer oil, and 82.75 tons of green waste.

The KoOlina Beach Club is also going green and is using disposable take-out products, which include: biodegradable cups, plates and utensils made from corn and sugarcane fibers

Moana Surfrider, A Westin Resort & Spa, was recognized by the Hawaii Department of Business, Economic Development and Tourism in 2009, and 2016 with the Green Business Award for its innovative “green practices” to help conserve energy, reduce pollution, recycle, and incorporate environmental purchasing into its daily operations.

The Moana Surfrider also earned the Energard Utilities Conservation Program Achievement Award for January, February, August, September and October 2010 for achieving the greatest energy reduction over all Starwood North America hotels and resorts.

WAIKIKI BEACH

OHANA® Waikiki East by Outrigger is a well maintained and meticulously cleaned hotel built in 1972 and located in the heart of Waikiki.

OHANA®
WAIKIKI EAST BY OUTRIGGER®

Custodians strive for ever increasing compliance with sustainability; the leadership approach to observe, ask questions, build relationships with the hosts, and to assess concerns, recommendations and ideas from many stakeholders before making decisions.

They implement a green strategy, conscious of the natural environment and take into consideration every aspect of the business, social, cultural, and economic

OHANA Waikiki Malia by Outrigger has a broad range of environmental initiatives in place to reduce their impact on the environment.

Some of their greener and environmental friendly efforts are; low-flow toilets, shower heads, and sink faucets in guest rooms and low-flow sink faucets and toilets as well as self-flush motion detectors in lobby public restrooms to reduce water consumption.

They invite guests to conserve water through reusing towels and sheets by placing placards in guest rooms. Additionally, they have retrofitted all guest rooms with CFL bulbs, EXIT sign lights to LED lighting, and public areas to T-8 and electronic ballasts

OHANA
WAIKIKI MALIA

As part of the Outrigger **OHANA**, **Outrigger Waikiki Beach Resort** is an active participant in the company's global conservation action plan, OZONE (Outrigger's Zone).

The property has instituted a number of ongoing recycling and sustainability initiatives to ensure Outrigger Waikiki Beach Resort is operated in an environmentally conscious manner throughout all aspects of its business

The Sheraton Princess Kaiulani offers a glimpse at Hawaii's royal past in the heart of Waikiki.

This Oahu hotel graces the former estate of Hawaii's last princess... offering Hawaii vacation value just steps from world-famous Waikiki Beach, plus unlimited shopping, dining, and nightlife options.

Sheraton Princess Kaiulani ranks second in the country among Starwood Hotels for energy efficiency and was Hawaii's first hotel – and the second building of any kind – to receive the national Energy Star award.

Sheraton®
PRINCESS KAIULANI

Sheraton Waikiki was Energy Star-certified and recertified in 2011. Sheraton, is a Starwood Hotel and like four other Waikiki Starwood hotels, were recognized by the Hawaii Department of Energy in 2005 for leading the industry in their “green” initiatives, and received an Energy Efficiency Award from Hawaiian Electric Company in 2006 for putting energy-efficiency programs in place.

Sheraton Waikiki was the first hotel in Hawaii to install electric vehicle charging stations and added two electric cars (Chevy Volts) to its fleet.

Sheraton®

WAIKIKI

The Equus Hotel partnered with GreenStar Energy Ltd., an energy conservation company specializing in reducing utility costs for the hospitality market.

The hotel has been steadily working toward ensuring that every staff procedure, program, system, and product line follows environmentally-sound best practices.

The Royal Hawaiian Resort Waikiki Energy Star-certified and were recertified in 2011.

The Royal Hawaiian, is a Starwood Hotel and like four other Waikiki Starwood hotel, were recognized by the Hawaii Department of Energy in 2005, and 2016 for leading the industry in their “green” initiatives, and received an Energy Efficiency Award from Hawaiian Electric Company in 2006 for putting energy-efficiency programs in place.

The Royal Hawaiian ranks third in the country among Starwood Hotels for energy efficiency.

The Waikiki Beach Marriott Resort & Spa 'ohana is committed to promoting and acting on all issues that will create a healthy environment for Hawai'i which includes recycling, using utilities wisely and actively looking for ways to improve our conservation efforts.

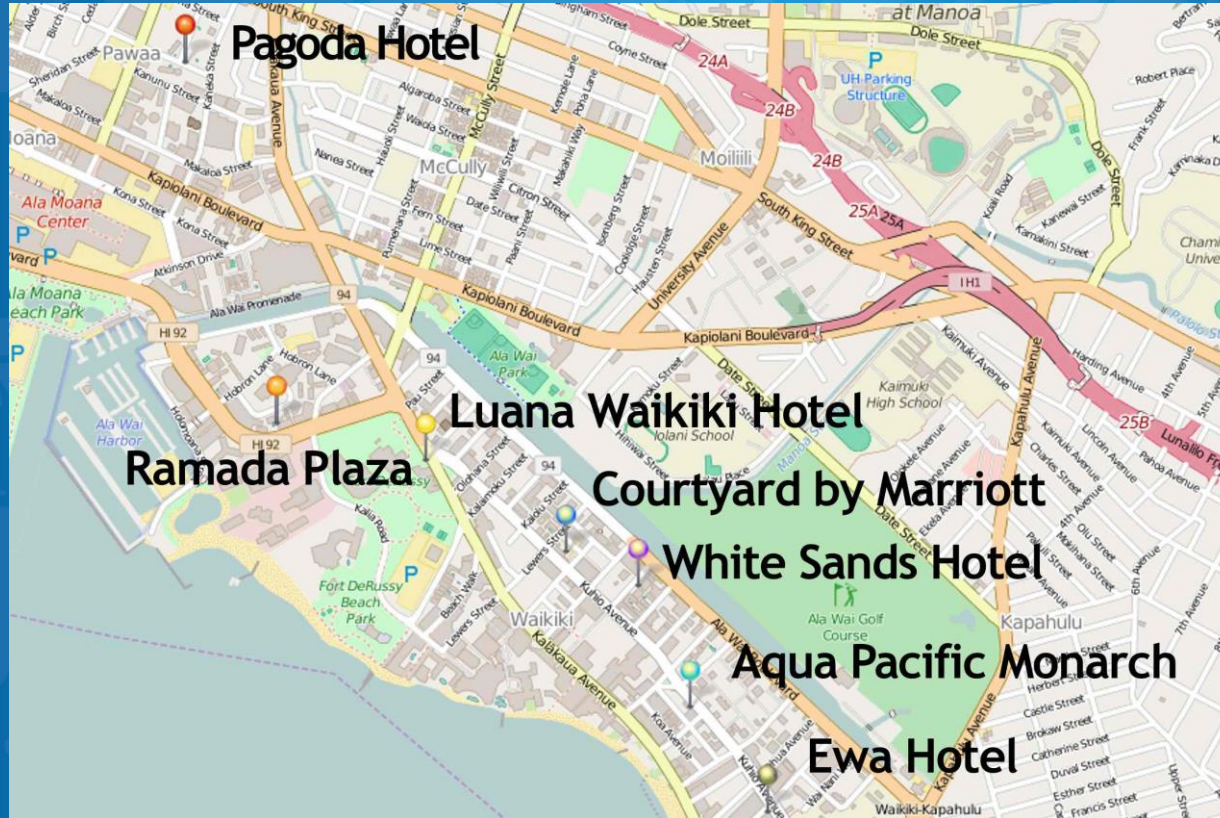

To help champion the various environmental programs, the Waikiki Beach Marriott Resort & Spa has created an *Energy Management Committee* that is fully committed to promoting the daily practices in energy conservation and recycling awareness
