HYATT CENTRIC™
WAIKIKI BEACH

About the Hyatt Centric Waikiki

Opened in December of 2016 in the heart of Waikiki

With 230 guest rooms in the center of all the dining and shopping one could desire, Hyatt Centric offers guests a great base of operations from which they can explore the island.

About the Hyatt Centric Waikiki

The Centric has several dining and shopping options on street level including Starbucks, Jamba, Nordstrom, Dukes Lane, and soon to be ICE MONSTER.

CONFIDENTIAL AND PROPRIETARY

Energy Savings

Let there be light... conversion!

Converting from T8 Fluorescents to LED motion sensor lighting in emergency stairwells and the parking structure has reduced our energy consumption in those areas by 60%.

Parking Lighting reduced consumption by 109,000 kW/year
Stairwell Lighting reduced consumption by 33,500 kW/year

Guest Room Initiatives

In-room Recycling

Providing a separate bin for bottles/cans makes it easy to recycle. Our housekeepers take the bottles/cans for reclamation and they keep the redemption.

REUSABLE > disposable!

By providing reusable water bottles and water stations, we prevent at least 167,900 disposable bottles from entering the waste stream annually.

Housekeeping Green Programs

There are so many ways to save the planet!!

Totally Green: Guests are offered the opportunity to opt out of daily service in exchange for a \$\$ credit.

- In 2018, this averaged 16.5 rooms/day or about 6,022 services in the year.
- Resulting in water and electricity savings

Optional Linen Change: Previously we automatically changed linen on the third day. By changing over to an “on request” method, we have reduced our linen output by 18%.

- This means less water/electric for laundering and less fuel burned on transport.

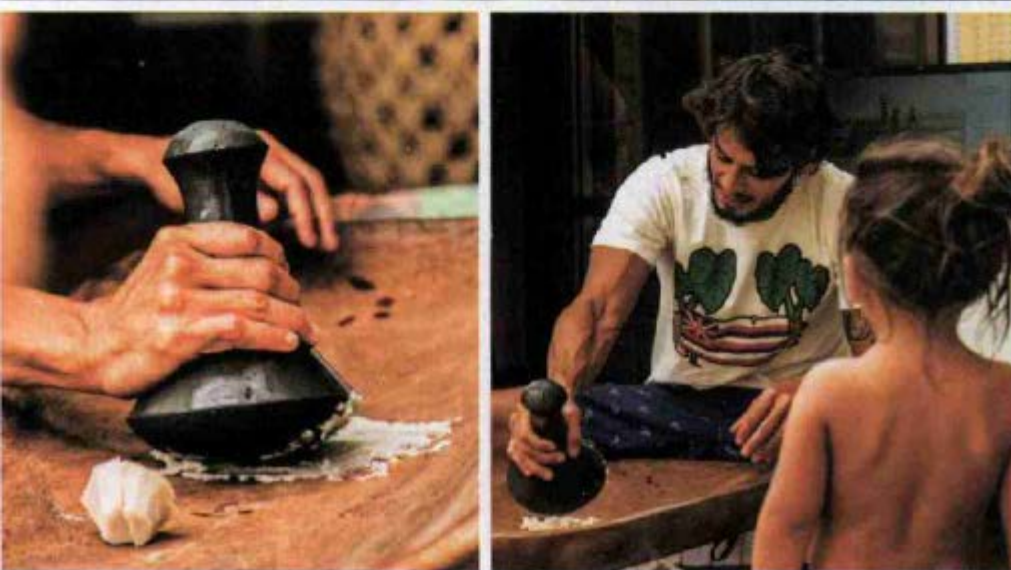

Towel Reuse: As is common practice in the modern age, we encourage guests to reuse their towels. A towel left on the floor will be replaced.

Other Initiatives

Cultural Engagement

Kalo:

In 2018, We introduced the monthly Kalo Harvest. Guests join a local farmer at our Taro patch on the Lanai to harvest and process their very own poi, lau lau, poi burgers, and more! Guests also learn about the importance of Kalo in Hawaii's history

Herbs Galore!

In 2018, we planted our very own Herb Garden which our cooks and bartenders utilize to ensure the freshest tasting culinary creations.

The background of the slide features a complex, abstract geometric pattern. It consists of numerous thin, light gray lines that intersect to form a variety of irregular polygons and shapes. Some of these shapes are elongated and narrow, while others are more compact. The overall effect is a dense, layered, and somewhat chaotic visual texture. A solid orange horizontal band cuts across the middle of the slide, providing a high-contrast background for the central text.

Mahalo!
