MASON + AIA Honolulu Firm Crawl
April 5, 2019

MASON participated in the Hawaii Green Business Program Green Events category as part of this year's AIA Honolulu Firm Crawl. It is believed every business can do their part to making Hawaii a more sustainable and healthy place.

Green Efforts:

- Hosted the event in historic building in an office that is equipped with daylighting energy efficient lighting, water efficient fixtures, and ENERGY STAR® equipment.
- Food and drinks were locally sourced and purchased. Offered Street Taco Bar to reduce the need for utensils and wrapping.
- Non-toxic cleaners used for pre- and post-event to reduce pollution to the environment.
- Digital signage and marketing material or printed on reused paper or a minimum of 30% post-consumer content paper.
- Encouraged visitors to be cognizant of their transportation footprint by using TheBus, Biki Hawaii, or by walking to various sites.
