Background:

Moana Lani Festival 2018 and Ocean Friendly Restaurants Pau Hana @ the Kahala Hotel

In conjunction with Zero Waste Summit hosted by Zero Waste O'ahu, the Moana Lani Festival is a platform for inspiring/educating the community to take action against modern day issues regarding our ocean, our coral reefs and marine life. SALT at Our Kaka'ako's innovative and transformative space will help host a festive environment that includes food, fashion, art and music. The festival aims to foster collaboration and bring community attention to local and international foundations, NGOs, marketplace innovators, scientific researchers, restoration initiatives, clean up and rehabilitation efforts, arts, sustainable practices, and moves in legislature, with a goal to improve our ocean.
