

Outstanding Efforts:

BOCA Hawaii is being recognized as a Hawaii Green Business for the first time for its efforts to minimize its impact on the environment through its events, community involvement, and in-store retail and fitness programs.

Reduction of Energy Usage:

- Reduced their electrical consumption by 12.1% over the past year
- Switched out old lighting to new, energy-efficient lighting
- Uses natural ventilation or ceiling fans for cooling upstairs studio

Products:

- Salvages and refurbishes bicycle parts for reuse
- Uses recycled-content office products including paper and folders

Pollution Prevention:

- Uses tea tree oil for general cleaning purposes

Transportation:

- Promotes the use of bicycles and other alternative transportation

Events/Community:

- Hosts a number of race events at which local food is provided and trophies are made of recycled materials
