

Concert on the Lawn by East-West Center

The East-West Center Participant Association was able to significantly reduce the amount of waste at their annual event, the Concert on the Lawn by encouraging all residents to bring their own plates, utensils, and cups for food as well as encouraging participants to arrive at the East-West Center via public transportation. In addition, attendees were encouraged to throw away food waste into labelled bags for composting in the community garden. This event modeled how sustainability efforts could be implemented at an event level for an international audience. In attendance of EWC's Concert on the Lawn were international graduate students, professionals, government officials, and diplomats.

Highlighted Green Measures from the Event:

Reusable mats for the audience

Bio-degradable utensils

Reusable decoration and centerpiece
