

HYATT CENTRIC[®]

WAIKIKI BEACH

Background:

The Hyatt Centric Waikiki Beach is being awarded its first Hawaii Green Business Award. With renovations completed in December 2016 and opening just days later, this explorer centric hotel offers guests a great launch pad from which they can explore the island. The Hyatt Centric Waikiki is dedicated to providing great service to those who are eco-conscious when traveling to keep their footprint as minimal as possible.

The Green Team Objectives:

The Hyatt Centric Waikiki Beach's Green Team works hard to advance environmental efforts by setting goals in energy, emissions and waste management as well as scoping out projects in the future to further those goals.

Guest floor ice machines with water dispensers + reusable water bottles

- ✚ Purchased reusable BPA free water bottles for guests eliminating as many as 120,000 disposable plastic bottles from entering the waste stream.
- ✚ Installed 3 new ENERGY STAR® ice machines throughout the hotel
- ✚ Installed 3 Brita water filter stations for guests to refill their bottles

Energy reduction through more intelligent lighting

- ✚ LED lights in the guest rooms on motion sensors and timers
- ✚ LED light conversion in the public stairwells on motion sensors and timers

Water Conservation

- ✚ Low flow heads on the guest room faucets and showers.
- ✚ Offering optional housekeeping service to reduce water consumption
- ✚ Offering optional linen change to reduce water consumption for cleaning

Water Conservation

- ✚ Hotel operated herb garden used for the bar and restaurant
- ✚ On site Kalo patch used for monthly harvests
- ✚ Changed all plastic cups for the pool to biodegradable
- ✚ Using biodegradable take-out containers and flatware in the restaurant
