National Award

Power Move – Demand Savings Bonus

Standard Custom Rebate Rates	Power Move Custom Rebate Rebates
\$0.12 per kWh saved	\$0.12 per kWh saved
\$125 per kW saved during 5-9pm peak	\$400 per kW saved during 5-9pm peak

- Technology Focus: Custom HVAC, exterior lighting, refrigeration, Transformers, UPS;
- Pre-approval Required; First come first served
- Some projects might require data logging
- Maximum rebate is capped at 50% of project costs
- Application Deadline: Jan 2023
- Project completion: June 30, 2023
- Retrofit projects only

POWER MOVE COMMERCIAL ENERGY STORAGE

Requirements:

- HECO interconnection
- Scheduled battery dispatch for 2+ hours between 5-9pm daily
- Must be installed by August 2023

**Encourage coupling with HECO
Battery Bonus program
though not required**

**Limited funding available—
contact us ASAP**

Type of Commercial Storage Installation	Rebate Per Kilowatt-Hour (kWh)*	
	Dispatched from 6:00 to 8:30 p.m.	Dispatched from 5:00 to 6:00 p.m. and/or 8:30 to 9:00 p.m.
Tied to solar PV—the majority of battery system charges daily from on-site solar generation	\$250	\$125
No renewable generation attached	\$150	

Available Rebates

Level 2 Station (must have at least 2 ports)

- **(New Installation)** \$4,500 per networked station
- **(Retrofit)** \$3,000 per networked station

**Additional funding is available for Level 2 stations installed at affordable housing properties. Please contact us for more information.*

DC fast-charging station

- **(New Installation)** \$35,000 per networked station
- **(Retrofit)** \$28,000 per networked station

Dishwasher	\$200-\$2,000	Download
Electric Griddle	\$150 per linear foot	Download
Hot Food Holding Cabinet	\$125 - \$800	Download
Low-Flow Spray Nozzle	\$50	Download
Reach-In Freezer (solid or glass door)	\$100 - \$300	Download
Reach-In Refrigerator (solid or glass door)	\$100 - \$200	Download
Steam Cooker	\$750	Download

PY21 Refrigeration Rebates

Refrigeration

Refrigeration can account for over two-thirds of total energy use in grocery stores and supermarkets. Upgrading your refrigeration technology is an easy way to increase efficiency and reduce your electricity costs.

Technology	Rebate
Evaporator Motor Controls	\$30 / fan
High Efficiency Evaporators	Up to \$1500 / unit
High Efficiency Condensing Units	Up to \$2000
Floating Head Pressure Controls	\$300 / controller
Adding Doors	\$200 / linear foot
ASH Controls	\$40 / linear foot
Night Covers	\$10 / linear foot
EC Motors for Refrigeration	\$85 each
LED Case Lighting	Varies (\$25-\$50 / kit)

Selling the Sun: Establishing Value for Solar Homes

May 9 [M] OR June 13 [M]

9:00am – 12:00pm | Online | Free

Join Franklin Energy learn the basics of solar and know how to market the benefits of an installation to have a market edge.

May 9 Registration

June 13 Registration

All About Ohanas/ADUs

May 19 [Th] In-person only, Honolulu OR June 6 [M] All online via Zoom

9:00am – 1:00pm | Free

This four-hour presentation focuses on increasing participants' knowledge about Accessory Dwelling Unit (ADU) and State code issues. This course was designed to respond to increasing client demand for properties with energy-efficient ADU potential, while also providing the opportunity to gain a competitive edge in the market.
