## Background:

Marriott's Maui Ocean Club opened as The Maui Marriott in 1981, which is Marriott's 100<sup>th</sup> resort, sitting on 16 acres and nestled in Ka'anapali Beach. Converted to a timeshare in 2000, they continue to find best practices on improving energy consumption and strive to participate within their community.

## Highlights:

Replaced heat exchanger plates to help reduce energy loss for the condensing water.

Replaced old hot water heaters with energy efficient on demand hot water heaters.

Beach cleanup.

Highway cleanup.
