KĀ'ANAPALI OCEAN RESORT  
MAUI

## Background:

Located in a garden-style setting with panoramic ocean views, The Westin Kā'anapali Ocean Resort Villas puts you at the center Maui's fun filled local activities as well a variety of unique amenities and events right outside your villa door. While you can enjoy whale watching, snorkeling, sailing, windsurfing and scuba diving just steps away, there are plenty of diversions on the resort to keep the entire family entertained in Maui. They all come with Westin touches keeping in harmony with the Hawaiian culture. Enjoy sparkling resort pools and waterfalls, two distinctive restaurants on property and two on-site markets providing a range of sundries, snacks, and supplies. The Business Center offers fully equipped computers and internet access. The Westin Ka'anapali Ocean Resort Villas features an array of cultural activities and events to please guests from cooking demonstrations and happy hours to craft fairs and activities for the kids.

## Highlights:

- **The Green Choice**

"You Tidy, We Treat. Your Green Choice" This program enables the resort to conserve energy and water by giving guests the option to defer daily housekeeping services for a delicious breakfast buffet at Auntie's Kitchen.

- **E-Folio**

In conjunction with the resort's "Make a Green Choice" Program, guests are invited to opt to receive their bill (folio) electronically which prevents the printout and delivery of hundreds of guest folios upon checking out.

- **Waste Minimization**

Waste Minimization, Recycling Program and Organic Waste Management currently enables the resort to divert minimum 20% of its trash from the landfill with assorted recycling bins throughout the resort, landscape green waste composting, used kitchen oil recycling to its biodiesel processor and unused furniture/appliance/electronics donations to charity and non-profit organizations.

- **Sustainable Food & Beverage**

Sustainable Food & Beverage Menus and Products ensure the conservation and sustainable use of biodiversity and healthy eating habits by sourcing local nutrients and supporting local organic farmers and businesses, fair trade items and eliminating threatened seafood varieties.

- Styrofoam Elimination and use of reusable and /or biodegradable products throughout the property protects human health and mitigates degradation associated with polystyrene manufacturing.

- Sustainable Herb Garden. Installed in December 2011, the resort's Executive Chef and his culinary team make use of the freshest herbs grown on-site in its Sustainable Herb Garden.

- Amenity Donation Program

- Amenity Donation Program, where gently used shampoos, conditioners and lotions left behind by guests are donated to Na Hale O Waināʻana, West Maui's Homeless Resource Center, also contributes to the diversion of waste.
