## GRAND VACATIONS

## Background:

**Hokulani Waikiki, a Hilton Grand Vacations Club**, is an upscale vacation ownership resort, this "Heavenly Star of Waikiki" perfectly blends traditional Hawaiian ambiance with contemporary flair. Ideally located at the exciting Waikiki Beach Walk®. Steps away from surf, sand and shopping, yet accessible to all of Oahu's diverse sights and sounds. The resort has some of the best staff in the business, offering excellent and personable service with 143 one-bedroom condo-like suites.

## Highlights

**Sustainability:** Hokulani Waikiki is committed to caring for the environment as we opened the property as a LEED Certified in 2014. Starting with our mostly international clientele who are environmentally conscious, Hokulani Waikiki has made great steps to running a green business for the best interest of our guests and to care for our environment.

### Hokulani Waikiki's commitment:

- Hilton LightStay has been added as a monitoring system for utilities and making sure we are using our resources efficiently and consistently. LightStay requires my property to also implement and complete sustainability projects such replacing appliances with more energy efficient products, etc.
- Air conditioning systems have occupancy sensors to automatically shut off when no motion has been detected after a length of time.
- Lobby glass doors to be shut during the day for AC efficiency
- Back office and storage areas as well as public areas have occupancy sensors for lights
- Energy Star rated electronics and appliances for all guest rooms and facilities.
- Perfect Rooms by Synergy to assign rooms for our housekeepers and onto their mobile devices and go paperless.
- Bar soaps and used and ¼ empty bottles of shampoos, conditioners, and body wash are donated to Clean The World.
- Added bulk amenities to lessen plastic waste.
- Recycling is encouraged in all guest rooms with instructions on where to dispose recyclable items.
- Recycling bins have been installed on each floor, back of the house areas, offices, and guest facilities
- Pool Bar stopped serving canned beers and only beers on taps.
- Pool Bar serves beverages on reusable polycarbonate plasticwares instead of disposable cups. Disposable cups are biodegradable and are only used during the last 30 minutes before closing.
- Access has picked up our paper wastes for recycling
- All reusable hotel items such as furniture, kitchenware, building equipment, linen and towels were donated to local charities.
- Scheduled soft goods renovations involved old furniture to be given to schools and liquidators to be resold
- Thinned rolls toilet papers and paper towels from guest rooms and facilities have been used for back of the house paper products
- Paper products with 30% or higher recycled content
- Garden area (a.k.a. Hokulani Farms) was added by our employee break room to grow edible plants and replant plants deemed to be discarded.
- Building materials due for discarding were repurposed for wall accent decorations
- Pod-coffee makers were replaced for mesh filtered coffee brewers for less waste

- Housekeeping cleaning products have been replaced with green friendly versions
- Participated in various HGV Serves community service events such as Genki Balls, Charity Walk (also, donations by team members), Seeds4Tomorrow, Boys and Girls Club of Hawaii, WOW Beach Cleanups, etc. We also invite our guests to volunteer with us.
- We also participate in the Aloha Festivals Royal Court Protocol at the Beachwalk for cultural awareness for our guests.

Hokulani Waikiki, a Hilton Grand Vacations Club, looks forward to participating further with Hawai'i Green Business program.
