SUNSHOWER
Weddings & Events

Background:

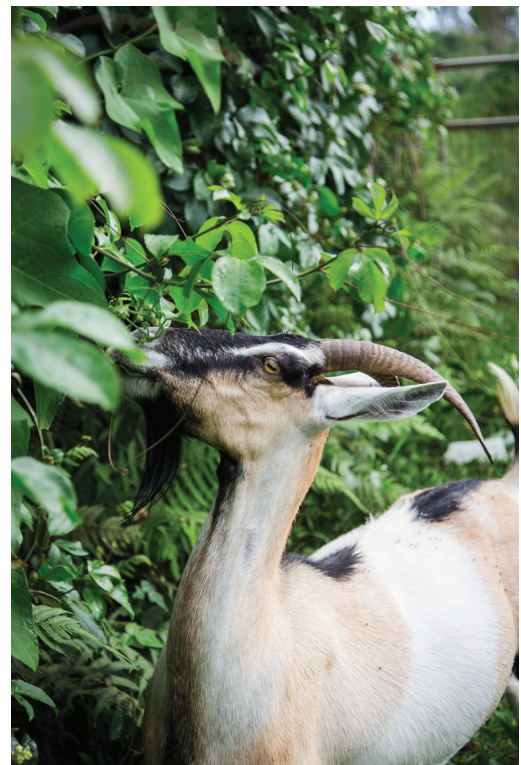

Sunshower Weddings is a Big Island wedding planning company with a mission of sustainability. Weddings, without thoughtful sustainability initiatives, can be huge generators of waste! They have a variety of tools they use to keep their events as sustainable as possible!

Highlights:

- Use of native plants and local florals in decor
- Composting of food waste and floral waste
- Reusable event rentals priced to compete with disposables to encourage reuse group shuttling to events
- Few, if any, printed elements at our events to cut down on paper waste

Bar rentals

One of their goats who eats the leftover florals and greens from centerpieces

Reusable rentals

Local florals
