## Background:

**Kona Brewing Company** is the state's longest-running craft brewery. Since its founding in 1994 by father-and-son duo Cameron and Spoon Healy, Kona Brewing Company has grown into a nationally recognized beer brand.

In 2020, Kona Brewing Hawai'i was established as an independent brewery, separate from the mainland's Anheuser-Busch operation, with the mission to brew fresh, local craft beers exclusively for Hawai'i.

## Highlights:

- This 30,000-square foot brewery is one of the most sustainable breweries in the world, generating and storing solar energy on site, recovering CO<sub>2</sub> from its own fermentation process, and recovering and purifying process water for brewery cleaning and irrigation.
- Kona Brewing Hawai'i has made significant strides to provide for the local community through its Makana Giving program. This community initiative provides support for local nonprofits that align with Kona Brewing Hawai'i's pillars to protect our environment and enrich the quality of life for all. Previous support has gone to the Eddie Aikau Foundation, Waipā Foundation and Surfrider Hawai'i chapters.
