Background:

Family owned and operated, **Sweet Cane Café** first opened in 2011 to provide Hawai'i Island with a casual, and accessible farm-to-table experience. From serving cane juice and soups to vegan and gluten free baked goods, items are made with as many local and organic ingredients as possible. Most ingredients are sourced from the café's family farm or from its network of dedicated local farmers.

Highlights:

- Food compost is picked up daily in coordination with local farmers.
- 95% of all products are organic, Fair-Trade, or humanely sourced.
- All to-go ware comes from Sustainable Island Products and is biodegradable or compostable.
- Food waste is minimal as everything is made fresh daily.
- Environmentally safe cleaning products are used.
