Time: 2:00 - 4:00 pm

Location: Honolulu (with hybrid option)

RSVP requested by October 9

dbedt.hgbp@hawaii.gov 808-286-4730

Presenters:

Jonathan Whelan is the Director of the Western Region for the U.S. Department of Energy's Onsite Energy Technical Assistance Partnership (TAP), where he leads efforts to deliver no-cost onsite energy feasibility analysis and renewable energy procurement for breweries and distilleries alongside other industrial facilities and large energy users in Hawaii, California, Nevada, and Arizona.

Farzan Kazemifar, Ph.D., P.E., is an Associate Professor and the Associate Chair in the Department of Mechanical Engineering at SJSU. He is the Founding Director of SJSU Industrial Assessment Center (ITAC) and an Associate Director of the Western Regional Center of Excellence ITAC. His activities are focused on energy systems, sustainability and energy efficiency in industrial and commercial buildings, as well as education, and training programs.

Melissa Onishi is an Energy Advisor with Hawai'i Energy with a B.S. and an M.S. in Mechanical Engineering from the University of Hawai'i at Mānoa, She provides consultation on energy efficiency and conservation initiatives for restaurants, grocery, agriculture, and food production and distribution to identify opportunities for energy savings, develop tailored solutions, and secure financial incentives.
